

Little Giant® HyperLite Sumostance

Sure-Set™ Ladder Feet

Angle Levels - Ensure a Safe Setup Every Time

Product Dimensions (Subject to Change)

| PRODUCT SKU | NOMINAL LENGTH (M) | APPROX. WORKING HEIGHT ^{1*} (M) | STORAGE LENGTH (M) | EXTENDED LENGTH (M) | STORED DEPTH (MM) | STILE WIDTH X DEPTH (MM) | WEIGHT (NETT KG) |
|-------------|--------------------|--|--------------------|---------------------|-------------------|--------------------------|------------------|
| 1303-852 | 2.6 | 5.5 | 2.6 | 4.9 | 152 | 27 x 88 | 17.2 |
| 1303-856 | 3.2 | 6.7 | 3.2 | 6.1 | 152 | 27 x 88 | 20.0 |
| 1303-860 | 3.8 | 7.9 | 3.8 | 7.3 | 152 | 27 x 88 | 23.1 |
| 1303-864 | 4.4 | 9.1 | 4.4 | 8.5 | 152 | 27 x 88 | 25.4 |

¹ Working height is calculated as 1,600mm plus the height of the platform or last climbing tread, whichever is appropriate.

Technical Description

The HyperLite™ SumoStance® is the only extension ladder in the world with Little Giant's patented SumoStance leveling outrigger system, which more than doubles the ladder's base width and increases side-tip stability. The SumoStance's intuitive safety features help ensure a safe, stable set-up for any job on almost any surface and is lighter than any other manufacturer's lightest ordinary extension ladders.

To be precise: the HyperLite SumoStance, with the added safety of leveling outriggers, is still lighter than any other traditional extension ladder without sacrificing strength and stability.

The HyperLite SumoStance also offers a side-to-side bubble level and front-to-back angle indicator, making it possible to set up the ladder safely. It also features Little Giant's unique side-mounted, dual-pulley system, which reduces the effort required to lift the fly section by 45% and removes the potential trip hazard caused by traditional center pulley rope systems.

Its wide rungs let you work comfortably without foot fatigue. The patent-pending Sure-Set™ foot allows you to set the feet in either flat or spike positions and have them stay in place.

Little Giant's exclusive nonconductive hi-viz green rail has been scientifically proven to be the most visible hue of the color spectrum to the human eye. Why should a ladder need to be hi-viz? Some of the most catastrophic falls are caused by people who walk or drive into an extension ladder in use. People die simply because the ladder was not visible.

- » Little Giant's patent-pending Hi-Viz Green
- » Side mounted double-pully reduces force required to raise the ladder and remove potential tripping hazard
- » Lighter than comparable extension ladders

Standards & Classification

- » Max Load 150kg
- » EN131 Professional

Warranty

- » 1 Year

Commodity Code

- » 39269097
